CALL FOR ABSTRACTS

On behalf of the Organizing Committee we are pleased to invite you to participate in the **2nd International Workshop Advances on Photocatalysis, AdvPhotoCat-E 2017** that will take place at the Technological Educational Institute (TEI) of Crete, Heraklion, Greece, between **July 14 and 16, 2017**.

The workshop focuses on key scientific issues regarding experimental and theoretical aspects of photocatalysis in real life applications regarding **Environment and Energy**. The fundamentals of photocatalytic processes will be reviewed as well as their application in environmental remediation, green chemical synthesis, self-cleaning, solar harvesting, H₂ generation etc. The workshop tries to open an extensive discussion between professionals from academia, research and industry, covering all areas involved.

The event will feature invited talks, oral presentations and a poster session.

The proposed topics are:

- Basic research on photocatalysis
- Photocatalytic materials
- Photoelectrochemistry
- Photocatalytic applications in environmental, energy, green chemistry, etc.
- Modern trends in clean energy production and storage

The abstracts can be submitted by e-mail at contact@photocatalysis-workshop.com. For details regarding submission please check the event website www.photocatalysis-workshop.com.

The **deadline** for submitting **abstracts** is **5th of May 2017**. Authors will be notified of acceptance and mode of presentation of their paper before **15th of May 2017**

Information about manuscripts publication and social program will be posted soon on the website. The website will be regularly updated so, please visit it from time to time to keep informed.

We would appreciate if you could disseminate this call for abstracts to your colleagues which may be interested to attend AdvPhotoCat-E 2017.

We are looking forward to meeting you at AdvPhotoCat-E 2017 in Heraklion Crete, Greece.

Organizer:

Center of Material Technology and Photonics, Technological Educational Institute of Crete
www.cematep.teicrete.gr/

Co-Organizers:

Department of Materials Science and Technology, University of Crete
